

How to set up (install or upgrade) Emma

Print this, then do ALL steps 1-9 or suffer unnecessarily.

Backup and keep your main Emma folders prior to any upgrade.

1. Download Emma599.exe to your PC; e.g. to C:\download
2. Start Windows Explorer
3. Double click Emma599.exe. If asked, overwrite files.
4. Double click setup.bat
5. Double click your Emma icon or \Emma\Emma.exe
6. <enter> <enter>
7. You'll then be at Emma's MainMenu, so choose
8. <F>ile-browsing, then
9. rowse (and perhaps <P>rint) 1a thru 1e
