

## **Stir02 Download and Upgrade Instructions**

**You should read and print these instructions before proceeding.**

**Important:- Backup and keep your main Stir folders prior to any upgrade**

As you are a current Stir user, follow the instructions below to upgrade to the latest version. If asked, choose <Y>es to overwrite existing files. In this document C: can of course be D: thru Z:

- Download the Upgrade file Stir143.exe 1MB (a self-extracting zip file) to C:\Stir02\
  - Double click on C:\Stir02\Stirinst.exe and wait a minute
  - Double click on C:\Stir02\upgrade.bat and read the screen
  - Double click on C:\Stir02\stir.exe
  - Press <enter> until you reach MainMenu, <R>eindex/check will run
  - Select suitable fonts if necessary (<H>ousekeeping | <F>onts)
  - Choose <F>ile-browsing then Browse/Print 1a thru 1e
  - Delete file Stir143.exe if you wish
